Landlord: Don't build a flat without putting a Kewanee Garbage Burner in it. It doesn't cost a great deal, but it adds fifty per cent to the renting value of your building. It is a standing advertisement for you. It will take the place of a lot of fancy and expensive fixings.

People are asking for health as well as comfort. They know that flies, rats, mice, filth, garbage and debris mean disease and unlimited misery. They know that this 'garbage burner keeps them all away. They are free from the smells and polluted atmosphere that hang around the garbage can. They are free from the garbage man and his horrible cart.

And you've got to remember that while this garbage burner is burning the garbage it is heating the water in your hot water tank and saving you from 25 to 40 per cent on your summer and winter fuel bill. That's worth thinking about. The Kewanee Garbage Burner burns fresh garbage without odor. It is a blessing and an economy, not a burden or a nuisance. Better look into it, now, landlord, and be prepared for the advance of Sanitary Science.
